

# The most important benefits of our products

## 1) SAVES TIME :

Our products save at least 10 minutes per placement. Multiply this by the number of radiators in a new building / renovation and you understand the picture.

## 2) ALWAYS CORRECT :

No more messing around with a tape measure or laser. Our position templates & templates always guarantee the correct distance.

## 3) REUSABLE :

Our products can be reused without any problems after each placement.

## 4) DURABLE :

Our products have been thoughtfully designed and made from the best materials.

## 5) RECYCLABLE :

Our products are 100% recyclable.

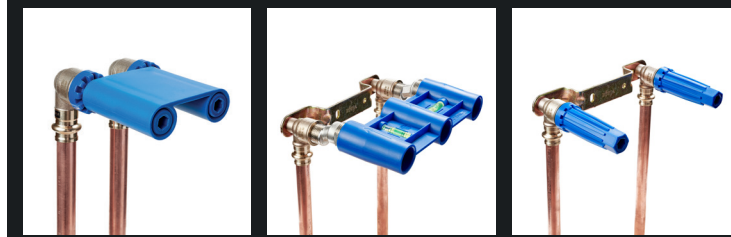

# POSITIEMAL

# POSITIEMAL

WWW.POSITIEMAL.COM

The smart solutions from Positiemal considerably perfect the connection of your sanitary and heating pipes.

The handy spirit level can be used both in the structural work phase and at the finish.

The accompanying position stop has a minimal outside dimension, which means that the tiles cannot be cut too large.

By using the positional products, the placement is always correct and you save a huge amount of time.

## POSITIEMAL

Our products are 100% compatibles with the faucets of Begetube, Honeywell, Danfoss, Comap, Vasco, Heimeier, RBM, ...

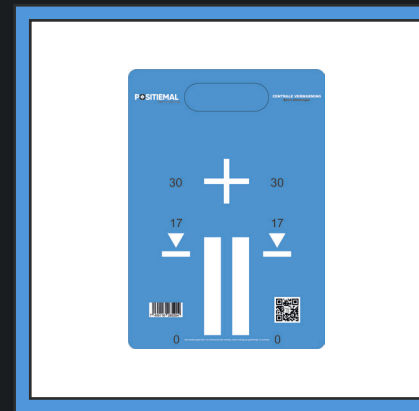

## Position template 50

Simplify the installation of your radiator.  
The right distance always and everywhere.

## Position template 153

Handy spirit level for the correct positioning of your wall plate. Can be used both in the rough construction phase and at the finish. You do not need to use an external spirit level when installing the S connections (bath / shower faucet)!

## Resume signing template

With the help of a chalk spray, the job is done in no time! Always correct, fast, sustainable and recyclable.

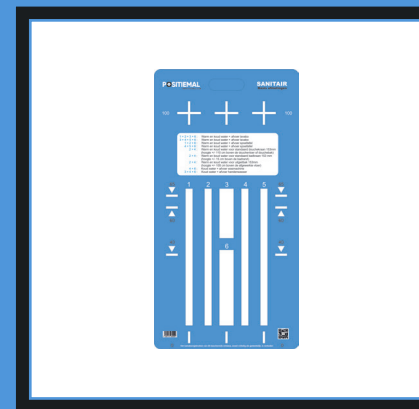

## Position stop 50

The position stop 50 can be used together with the position jig 50 when working with installation boxes or bends  $\frac{1}{2}$ ".

## Position stop 153

The position stop 153 ( $\frac{1}{2}$ " ) has a minimal outside dimension, which means that the tiles cannot be cut too large.
